Success Story

When Andra Simpson came into the SC Works Office, she was underemployed, and not earning enough to sustain her family of five. Andra had always been interested in a nursing career, but needed assistance to complete the program. She had already been accepted into the Nursing Program at Greenville Technical College, which is how she discovered the services that SC Works provides.

She entered the program in search of a career path in the Nursing Industry that would allow her to earn a living to support her family. She quickly realized that the supportive services offered by SC Works would assist in removing any financial barriers associated with training.

Ms. Simpson completed the Nursing Program in May of 2023; she showed a constant sense of responsibility, commitment, and a desire to grow during her participation in the WIOA program. She began working with Spartanburg Regional Medical Center in April of 2023, in the Progressive Cardiac Unit. Andra continues to thrive in this environment and stated that she is grateful for the WIOA program as it has allowed her to obtain her Nursing Degree and provide a better quality of life for her family.
