

## **INSTRUCTION LETTER**

**INSTRUCTION NUMBER: 17-12 WIOA** 

TO: All Grantees

SUBJECT: Employer Service Performance Indicators and Employer Service Codes

DATE

DATE

DATE

**ISSUED:** July 2, 2018

EFFECTIVE: April 26, 2018

**EXPIRES:** Indefinitely

**PURPOSE:** To issue a local policy regarding employer service performance indicators for Workforce Innovation and Opportunity Act (WIOA) Title I and Wagner-Peyser programs and issue revised employer service codes and definitions.

BACKGROUND: One of the primary indicators of performance required by the Workforce Innovation and Opportunity Act is Effectiveness in Serving Employers (ESE). This indicator is measured as a shared outcome across all six core programs within each state to ensure a holistic approach to serving employers. The U.S. Departments of Labor and Education are implementing the ESE Indicator in the form of a pilot program. Three approaches for measuring ESE were developed at the federal level:

- Retention Rate the percentage of participants with wage records who exit and were employed by the same employer in the second and fourth quarters after exit;
- Repeat Business Customers Rate the percentage of employer establishments using services during the year that also used services within the previous three years; and
- Employer Penetration Rate the percentage of employer establishments using services out of all employer establishments in the state.

NOTE: The number of employer establishments is defined by the Bureau of Labor Statistics (BLS) Quarterly Census of Employment and Wages (QCEW) program. For employers with more than one physical location, the QCEW reports each work site as a separate establishment, and; therefore, the total number of business establishments receiving services is counted this way.

States were required to select two of these three approaches to report on the ESE indicator. The ESE approaches currently being piloted in South Carolina include *Employer Penetration Rate* and *Repeat Business Customers*.

POLICY: The new ESE performance indicator makes tracking employer services in the SC Works Online Services (SCWOS) system vitally important. In preparation for this reporting requirement, the employer service codes have been revised (Attachment A) and mapped to eight employer service categories specified by the U.S. Department of Labor and Education (Attachment B). The first annual reporting on the ESE Indicator will be October 2018 and will cover the period July 1, 2016 through June 30, 2017. No data prior to July 1, 2016 will be included in federal reporting.

Reviews of employer services records in SCWOS reveal that changes are required to ensure the accuracy and integrity of data for annual ESE reporting. All employer services entered in SCWOS must meet the definition of the applicable employer service code. In addition, it is integral that case notes be added concurrently with employer service codes to protect the integrity of the data, to ensure compliance with guidance for monitoring purposes, and to advise other Business Services of the engagement in detail to avoid duplication of services. Local WIOA Title I and Wagner-Peyser staff are instructed to review all employer services in SCWOS from July 1, 2016 forward and correct employer service codes in accordance with this guidance. See Attachment C for examples of Incorrect or incomplete employer service data in SCWOS, as well as instructions to identify and correct data.

**ACTION:** Ensure that this policy is distributed to all appropriate staff and that they understand this policy. SCWOS data for employer services July 1, 2016 and forward must be reviewed by staff and necessary change notices submitted by June 30, 2018.

**INQUIRIES:** Should you have any questions concerning this instruction, please contact Dana Wood at (864) 596-2028 (TTY: 711 or wood@upstateworkforceboard.org).

#### Attachment B - Employer Service Categories

#### **Employer Information and Support Services**

The total number of establishments that, during the reporting period, received staff-assisted services designed to educate them about and engage them in the local job market/economy and the range of services available through the One-Stop delivery system. Establishment information services may be provided in a variety of service interventions including orientation sessions, workshops, or other business consultations (e.g., initial site visits). Information and support services that are delivered to establishments through mass mailings or communications, "cold" calling or other follow-up contacts, and regular establishment newsletters, brochures, or publications are not reportable services under this category.

These services include, but are not limited to, providing information on:

- State and Federal tax credits or workforce investment incentives (WOTC);
- Customized workforce information on State, regional and local labor market conditions, industries, occupations, and the characteristics of the workforce, skills businesses need, local employment dynamics information such as workforce availability, worker supply and demand, business turnover rates, job creation, and job identification of high growth and high demand industries; and
- Proactive linkage and referral of establishments to community resources that support their workforce needs.

#### **Workforce Recruitment Assistance**

This category includes the total number of establishments that, during the reporting period, received workforce recruitment assistance from staff or remotely through electronic technologies.

These services include, but are not limited to, assisting employers to meet their human capital and skilled workforce needs by:

- Supporting employers' search for qualified candidates;
- Securing information on job requirements and providing employers with One-Stop staff support for candidate screening and pre-employment interviews at the One-Stop Career Center (or affiliate site) or on site at the place of business;
- Taking job order information and promoting the employment opportunities (advertising the opening to the workforce);
- Conducting special recruitment efforts including out-of-area or out-of-state recruitment for candidates with special skills;
- Organizing, conducting, and/or participating in job fairs;
- Providing employers with meeting/work space at the One-Stop Career Center (or an affiliate site) for screening and interviewing;
- Conducting pre-employment testing, background checks and assistance in completion of the I-9 paperwork; and
- Providing employers with job and task analysis services, and absenteeism analysis.

#### Engaged in Strategic Planning/Economic Development

This category includes the total number of establishments that, during the reporting period, were engaged in either workforce investment strategic planning or business growth and economic development strategic planning.

These activities could include, but are not limited to:

- Participating in community-based strategic planning;
- Sponsoring employer forums;
- Securing information on industry trends;

#### Attachment B - Employer Service Categories

- Providing information for the purpose of corporate economic development planning; and
- Partnering in collaborative efforts to identify workforce challenges and developing strategies to address those challenges.

#### Accessing Untapped Labor Pools

This category includes the total number of establishments that, during the reporting period, established pipeline activities in partnership with the public workforce system.

#### Activities include, but are not limited to:

- Outreach to youth, veterans, individuals with disabilities, older workers, ex-offenders, and other targeted demographic groups;
- Industry awareness campaigns;
- Joint partnerships with high schools, community colleges, or other education programs to improve skill levels: and
- Programs to address limited English proficiency and vocational training.

#### Trainina Services

This category includes the total number of establishments that, during the reporting period, received publicly funded training assistance, including customized training, on-the-job training, and incumbent worker training.

#### Incumbent Worker Training Services (subset of Training Services)

This category includes the total number of establishments that, during the reporting period, received publicly funded incumbent worker training assistance.

#### Rapid Response/Business Downsizing Assistance

This category includes the total number of establishments that, during the reporting period, received an initial on-site visit or contact to either (a) discuss the range of rapid response services and other assistance available to workers and employers affected by layoff, plant closures, or natural disasters, or (b) as required by WIOA Section 3(51)(A), plan a payoff response following notification of a current or projected permanent closure or mass layoff, including natural or other disasters.

#### Planning Layoff Response (subset of Rapid Response/Business Downsizing Assistance)

This category includes the total number of establishments that received an initial on-site visit or contact, as required by WIOA section 3(51)(A), to plan a layoff response following notification of a current of projected permanent closure or mass layoff, including natural or other disasters.

#### **Incorrect Use of Service Codes**

<u>Example 1</u> – Twelve (12) "E20 – RR-Funded IWT Agreement for Layoff Aversion" service codes were entered for one employer in a span of three months. The description and notes of the service code that are currently available from SCWOS Online Resources-Employer Service Code Definitions read, "Employer signed a RR-funded IWT Agreement. Case notes must include the IWT Agreement Number. Number of positions and timeline."

The revised codes attached to this state instruction do not redefine the description and notes, but simply improve the language to strengthen the meaning and intent of the service code, "Employer signed a Rapid Response-funded IWT Agreement for Layoff Aversion. Case note must include the IWT agreement number, number of positions and timeline."

This activity should only be used when a business actually signs a RRIWT agreement or for follow-up once the agreement is signed, not for the purposes in the example below.

Staff Name:	Pepper Potts	Phone:	843-555-1212			
*Activity/Service:	E20 - RR-Funded I	WT Agre	ement for Layoff Ave	ersion		
Scheduled Date:	15	Today

	No data found.					

\*Note - During research, it was identified that E20 employer service codes were being used when providing RRIWT or IWT information only. The description and notes for the service code must be adhered to at all times.

#### Incorrect Use of Service Codes (cont'd)

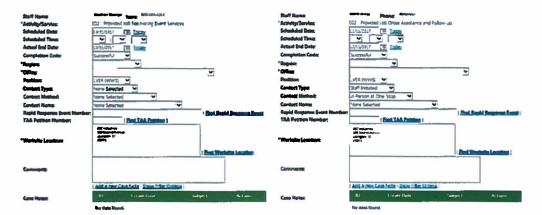

Example 2 – Twenty-six (26) "E13 – OJT Agreement" service codes were entered for one employer in a span of three months. In addition, seven (7) "E20 – RR-Funded IWT Agreement for Layoff Aversion" and three (3) "E40 – State or Local IWT" service codes were also entered during this time. The employer is 1) pending verification and 2) a marketing lead. These codes were entered in contradiction of State-issued guidance requiring employer registration and verification in SCWOS and there is no participant activity associated with the employer. Case notes should be entered in lieu of codes if no true service is being provided.

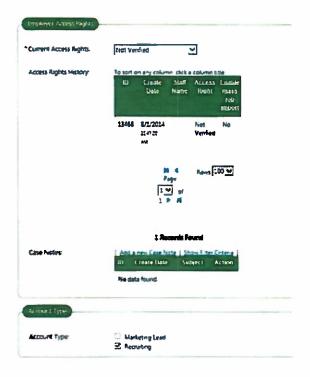

### Incorrect Use of Service Codes (cont'd)

<u>Example 3 – "E02 – Provided Job Fair/Hiring Event Services" or "E03 – Provided Job Order Assistance and Follow-up" codes entered for an employer that is not verified in SCWOS and is set as a recruiting lead.</u>

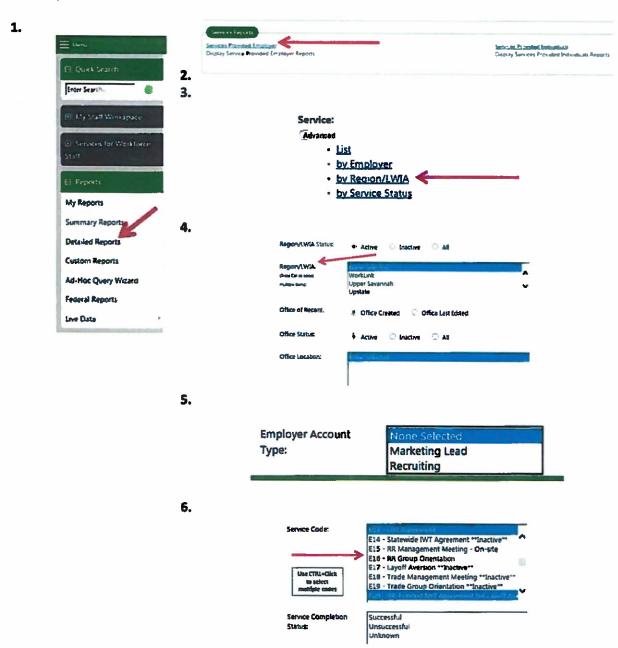

#### **Steps to Identify and Correct Data**

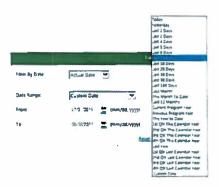

#### Instructions to Run Services Provided Employer Report

To identify employer services data requiring corrections or to monitor employer service code use, the following instructions should be used to run Services Provided Employer Reports:

Path to Run Report — Log in → Left navigation bar → "Detailed Reports" → "Services Provided Employer" → "by Region/LWIA" → Select local area → Select "Marketing Lead" as the Employer Account Type → Select desired employer service codes or ignore to include all service codes → Select desired date range → Click "Run Report"

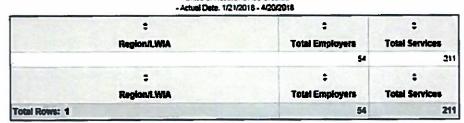

7.

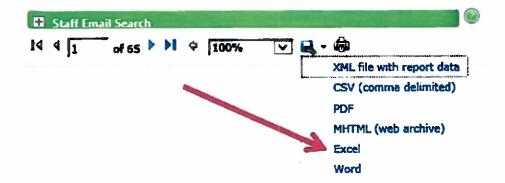

The report should then display. You may export to PDF, Excel, Word, etc.

Employer Account Type Marketing Lead - Office of Record. Office Created

#### Instructions to Correct Data

Document any change to the employer record in case notes and submit a change request to <a href="mailto:PolnPro@dew.sc.gov">PolnPro@dew.sc.gov</a>. If an incorrectly entered service code needs to be deleted, a case note outlining the activity that occurred must be entered before deletion of the service proceeds; this will ensure continuity of contact made and allow other business services staff to understand all contact that has transpired with an employer.
