We started off September with two students in work experiences. Our newest work experience was with Triangle Animal Hospital in Union, where ACHIEVE student Claire Monroe is working assisting the clinic with various needs. Claire came into ACHIEVE and expressed an interest in veterinary medicine. We have worked with Triangle in the past and they were excited about another Work Based Learning opportunity. Claire helps with some of the front desk day to day, working with customers, and helping with basic animal care while they are at the vet. Through this experience she is also able to get to observe some veterinary procedures. Claire is working towards her GED and should be complete in the next month. She has yet to decide upon a major, but knows she wants to further her educational career in higher education.
